1. Applicant's election without traverse of the invention of Group 1, claims 80-99, in the reply filed on March 18, 2009 by cancelling all claims to a second invention is acknowledged.
2. The amendment and substitute specification filed March 18, 2009 has been entered.
3. The drawings are objected to because Fig. 1 should apparently be legended - - - Prior Art - - -. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

5. Claims 80-99 are rejected under 35 U.S.C. 102(b) as being anticipated by Andreussi WO 00/49370, cited in the IDS.

Note especially the abstract, Figs. 1-2, page 3, line 9- page 6, line 23, page 7, line 13- page 8, line 23, page 9, lines 10-17 and page 11, line 12-page 14, line 17. The structure and elements in Andreussi appear to be inferrable to be structured or used as claimed.
